

**STUFFITTS® FOR GLOVES**

**Stuffitts® For Gloves** is a form-fitted, reusable cedar insert to combat moisture and kill odor in gloves caused by perspiration and outdoor elements. We offer two different styles designed to fit two primary forms— thick-padded and thin-padded gloves.

**Stuffitts® for Gloves** is a uniquely effective solution that protects all types of athletic outdoor, sporting, occupational and tactical gloves from the damaging effects of moisture and odor. For best results, use in gloves made with synthetic fabrics and materials, not treated leathers or other natural animal skins.

- Micro-poly wicking fabric infused with Microban® antimicrobial product protection to help prevent odor causing bacteria on the fabric insert
- Treated soil release fabric finish
- Extra wide 3/8" seam allowance and high stitch/inch count for added seam strength
- Firmly compacted cedar fill allows insert to retain it's functional form even when compressed

- Specially processed, eco-friendly eastern red cedar is a superior natural drying material with antimicrobial, antifungal properties
- Convenient nylon strap keeps inserts and gloves together
- Flat, rectangular shape allows easy insertion into gloves while providing substantial coverage of entire inner palm and wrist area
